How to Contact Us:

Information: 715.386.8861
 Online: www.vikingelectronics.com
 Email: info@vikingelectronics.com
 FaxBack: 715.386.4345

All Viking products are in-stock nationwide through distributors listed on the back cover.

NEW: "Document on Demand" Search

Viking wants to make it easy for you to get the product information you need, so we've added a new search to our website called "Document On Demand" (DOD). All Viking catalogs and literature have "Fax Back Numbers" to allow information to be faxed to you through our automated system, now the same numbers can be entered on our homepage for a direct link to product cut sheets.

One number, two easy ways to get information: Online or FaxBack

Document on Demand:

*Look for **DOD** numbers throughout this catalog!*

When to Use Viking Enhanced Weather Protection (EWP) Products

Viking **EWP** products are designed to be used in high-humidity, wet or exposed locations and corrosive or high pollution environments.

Typical applications include outdoor emergency or entry phones, roadside assistance and parking garage phones or phones located in salt-air environments near the ocean.

EWP product's electronics are encapsulated in clear urethane. The field adjustable trim pots and dip switches are sealed as are the LED, push button and microphone connections. The mylar speakers have a special weatherproof gasket. Finally, the weatherproof connectors are filled with an anti-corrosive sealing gel.

All **EWP** products conform to **NEMA 3R** requirements.

To order a Viking **EWP** product, add the suffix "-EWP" to the model number.

EWP product shown working underwater.

Mass Emergency Notification Announcer

Provide Digitally Recorded Mass Notification / Evacuation Messages and Alert Tones Over Your Existing Paging System

- Securely activate, reset or live page from a remote phone
- Alert tone and message repeat 1-99 times or until reset
- Local or remote record up to 5 different messages
- Up to 2 minutes of total message record time
- Select from up to 10 different alert tones
- Non-volatile memory (no batteries required)
- Call progress detection for automatic hang up on CPC, busy signal, dial tone or silence
- Automatically interrupts current page or background music to inject notification announcements, alert tones or live page
- Trigger input to activate a single message and/or alert tone
- N.O. and N.C. trigger output contacts for activating a flashing beacon, alarm dialer, etc.
- Power supply included

Alert Tone Applications:

- Evacuation
- Lockdown
- Severe Weather
- Hazardous Materials
- Terrorist Alert
- Fire
- Tornado
- Flash Flood
- All Clear

INSIDE:

Mass Notification p.3

Emergency Phones p.4-5

Affordable

Campus security budgets have increased over the past decade, but not nearly as fast as the increase in threat levels. That's put you in a tight spot. We can help. Viking products are reliable and cost effective - you can increase security on campus and stay within budget.

Reliable

Viking security products have proven themselves in the field for over 35 years. That's not just our opinion, its a fact. Our customers tell us that our Enhanced Weather Protection (EWP) technology provides significantly longer service life than similar products from our competitors. That means Viking is the right choice today and years down the road.

Made in the USA

Add our outstanding US based customer service and technical support to the mix and you can see why Viking is your best choice for campus security products.

Quality

Whether you're considering our mass notification announcers, our extensive line of emergency phones or our door access control products, you can be sure that Viking has the product you need at a price that will fit your budget.
