

Provide an Answering/Informational Message to All Callers

1. Record the answering message.
2. Set up a Hunt Group on the PABX to answer the calls.
3. Program the **ACA-1A** memory position #00 to transfer callers to the Hunt Group's access code.
4. Program the C.O. lines to ring to Station A.
5. To answer more calls at one time, add additional **ACA-1A**'s.
