# APPLICATION Note

## DNA-510

**Controlling a  
BLK-3-EWP**

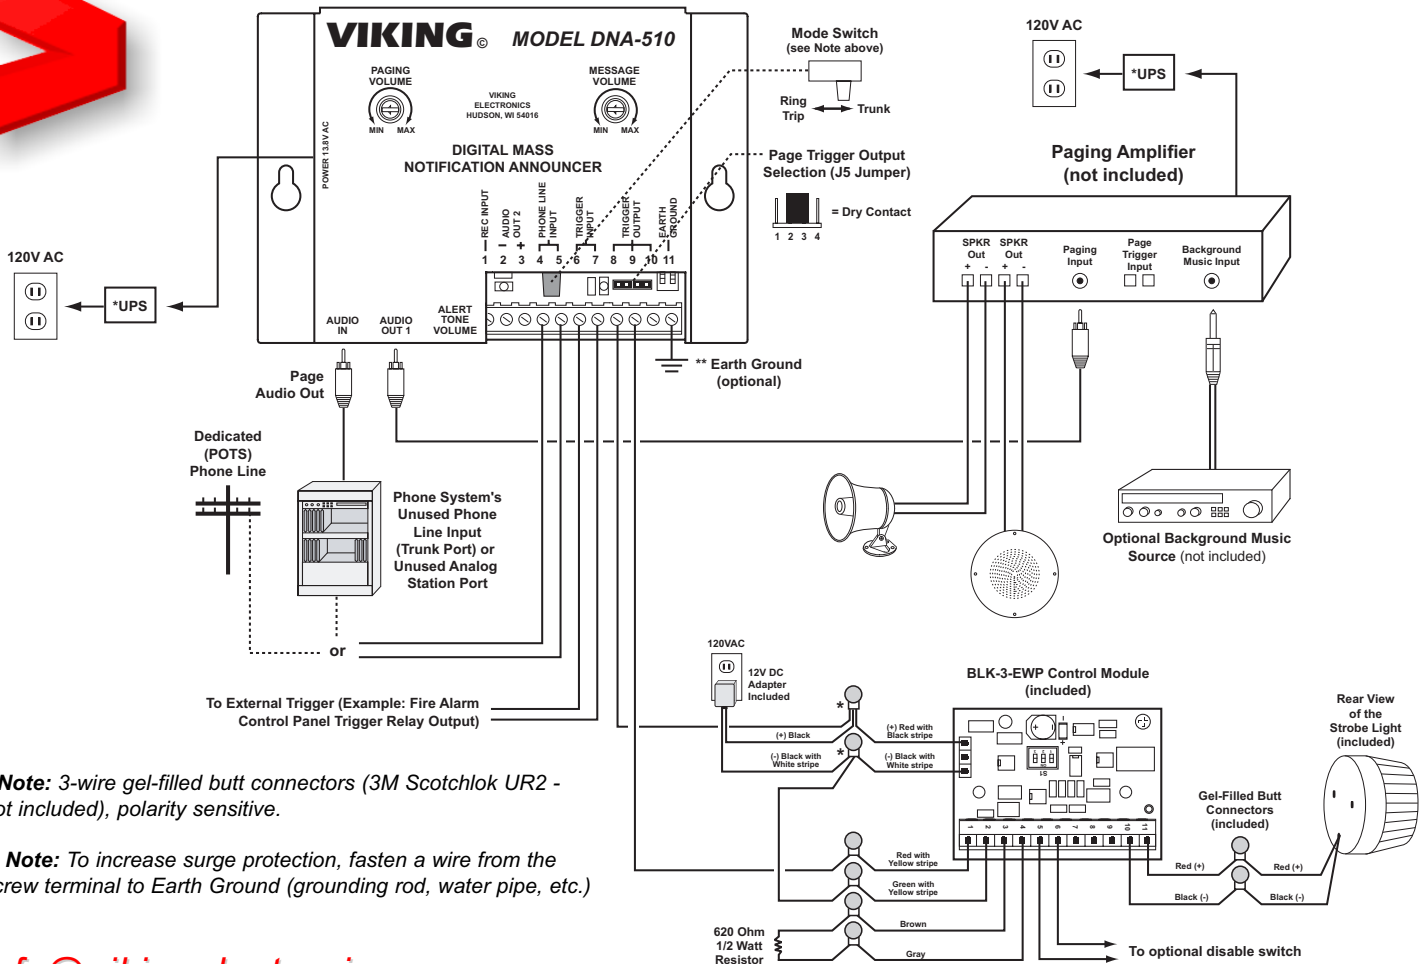

September 24, 2007

**TELECOM SOLUTIONS FOR THE 21ST CENTURY**

## **Automatically Turn On a One Million Candle Power Strobe Anytime the DNA-510 is Activated**

This application will allow you to automatically turn on a **BLK-3-EWP** strobe light anytime the **DNA-510** is activated from any telephone on your phone system. You can simply access the phone system's line the **DNA-510** is connected to or call the phone system extension or dedicated POTS line it is connected to. The unit will automatically answer allowing you to enter a touch tone command to interrupt standard paging or background music and announce a live emergency page, start a emergency pre-recorded message or start one of ten different alert tones. **Note:** Place mode switch in "Trunk" position when connecting to a phone system's unused line input. Place mode switch in "Ring Trip" position when connecting to a phone system's unused station port or dedicated phone line.

### Installation

\* **Note:** 3-wire gel-filled butt connectors (3M Scotchlok UR2 - not included), polarity sensitive.

\*\* **Note:** To increase surge protection, fasten a wire from the screw terminal to Earth Ground (grounding rod, water pipe, etc.)
